To whom it may concern:

I am writing to attest to the significant educational and cultural value brought to our students by the PuppeTree's shadow puppet production of *The Legend of Sleepy Hollow*. The production was a beautiful and unusual way of presenting this classic American story. The PuppeTree chose to use Washington Irving's original words to provide an example of the language and literature of that historical period.

The silhouettes were exceptional, and it was great fun for all the students. The advanced materials enabled our teachers to extend the educational value into their lesson plans to help prepare the students for the show they were about to see.

I highly recommend *The Legend of Sleepy Hollow* by the PuppeTree for assembly programs.
